

2026

myo MASTERMINDS Graduation

CONGRATULATIONS! You've completed over 9 months of intensive literature studies and case-based learning, amassing over 88 hours of instruction and workshops. We trust you've enjoyed the journey, exploring everything from oral sensory-motor to orofacial myofunctional diagnostics and treatment with your cohort. We are grateful to have you with us for our two-day practicum and graduation event, where you'll further apply your skills on actual cases and explore practical tools and exercises.
